this book is as useful today as it was over 100 years ago it was written then to give machinists practical instruction on how to design and construct patterns in doing so it describes the actual pattern shop practice of the late 19th century using the terms and methods of that period joshua rose explains the various types of patterns how they are constructed and the tools that are used this is a reprint of the sixth edition which gives some indication of the popularity of the book among late 19th century practitioners

this is a reproduction of a book published before 1923 this book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process we believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide we appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

historical papers are prefixed to several issues
